> *In this part of the survey I will ask you questions about your work experience. It is well known that experiences and exposures at work can potentially have a significant impact, both positive and negative, on a person's health and sense of well being.*
>
> *For that reason, some of the questions in this section will go into detail on the type of work you have done so that we can accurately categorize your occupation.*
>
> *SHOW can then utilize information from other databases to identify possible health risks of that type of occupation. This type of information could help us to better understand the health risks of Wisconsin residents.*
